

Greenhouse Gas Reduction Targets

S7J-80-0024-2.0

To support global efforts in combating climate change, VIGO Photonics commits to reduce our own greenhouse gas emissions and encourage our business partners to do the same.

To ensure that our actions have a measurable and verifiable impact, we've calculated the emissions generated by our operations and set reduction targets.

VIGO Photonics is committed to **reducing** its Scope 1 and 2 **greenhouse gas emissions** by

7%

per detector produced by the end of 2030 from the base year 2023

Adam Piotrowski, PhD
