QUALITY POLICY

1. OUR GOALS

Our goal is to continue the company's intensive development in the global photonics market. We strive to improve our solutions to meet the growing requirements of the constantly expanding group of customers.

2. OUR PEOPLE

We have built a strong team of professionals focused on quality assurance in all areas of the company's operations.

Performing our daily tasks, we are guided by VIGO VALUES, which are the foundation of our organizational culture.

We continue to cooperate with research units in order to exchange experiences, maintain a high level of knowledge and competences, and accelerate the implementation of research and development goals.

3. OUR QUALITY

At VIGO, we have built and implemented a Quality Management System in accordance with ISO 9001: 2015 and dual use regulation (EU 2021/821). We meet all required legal requirements and technical standards. We achieve the effectiveness of our system through planning, monitoring and evaluation based on the PDCA cycle.
