VIGO Photonics S.A. has a classified office for processing classified information marked as Restricted, NATO Restricted, Restreint UE/EU Restricted, in paper form, in the classified office, and in electronic form, on an Accredited Computer Workstation. We also have the ability to process classified information

at the premises of the Ordering Party/Client.

Our company has appointed a Business Manager and a Security Division consisting of: a Representative for the Protection of Classified Information, a Confidential Office Manager, an ICT Security Inspector, as well as – outside the Security Division – an ICT System Administrator. The above persons hold Security Clearances enabling access to classified information, issued by the Internal Security Agency, and have completed specialist training at the ABW Classified Information Protection Department and the ABW ICT Security Department.

We employ qualified staff trained in the protection of classified information by the Classified Information Protection Officer. These employees have also been granted access to classified information marked as Restricted, NATO Restricted, Restreint UE/EU Restricted, issued by the company manager for the duration of their employment with our company.

We have an up-to-date list of persons employed by our company who are authorized to perform work involving access to classified information.

We are ready to undertake work involving access to classified information

classified as Restricted, NATO Restricted, Restreint UE/EU Restricted.
